Centene Corporation operates as a multi-national healthcare enterprise that provides programs and services to under-insured and uninsured individuals in the United States. Its Managed Care segment offers health plan coverage to individuals through government subsidized programs, including Medicaid, the State children's health insurance program, long-term services and support, foster care, and medicare-medicoid plans, which cover dually eligible individuals, as well as aged, blind, or disabled programs. Its health plans include primary and specialty physician care, inpatient and outpatient hospital care, emergency and urgent care, prenatal care, laboratory and X-ray, home-based primary care, transportation assistance, vision care, dental care, telehealth, immunization, specialty pharmacy, therapy, social work, nurse advisory, and care coordination services, as well as prescriptions and limited over-the-counter drugs, medical equipment, and behavioral health and abuse services. This segment also offers various individual, small group, and large group commercial healthcare products to employers and directly to members in the Managed Care segment. The company's Specialty Services segment provides pharmacy benefits management services; nurse advice line and after-hours support services; and vision and dental services, as well as staffing services to correctional systems and other government agencies; and services to Military Health System eligible beneficiaries. This segment offers its services and products to state programs, correctional facilities, healthcare organizations, employer groups, and other commercial organizations. The company provides its services through primary and specialty care physicians, hospitals, and ancillary providers. Centene Corporation was founded in 1984 and is headquartered in St. Louis, Missouri.

Zoetis Inc. discovers, develops, manufactures, and commercializes animal health medicines, vaccines, and diagnostic products in the United States and internationally. It commercializes products primarily across species, including livestock, such as cattle, swine, poultry, fish, and sheep; and companion animals comprising dogs, cats, and horses. The company offers vaccines, which are biological preparations to prevent diseases of the respiratory, gastrointestinal, and reproductive tracts or induce a specific immune response; anti-infectives that prevent, kill, or slow the growth of bacteria, fungi, or protozoa; and parasiticides that prevent or eliminate external and internal parasites that include fleas, ticks, and worms. It also provides other pharmaceutical products, which comprise pain and sedation, antiemetic, reproductive, and oncology products; Dermatology products for itch associated with allergic conditions and atopic dermatitis; and medicated feed additives that offer medicines to livestock. In addition, the company offers portable blood and urine analysis systems, and point-of-care diagnostic products, including instruments and reagents, rapid immunoassay tests, reference laboratory kits, and blood glucose monitors; and other non-pharmaceutical products, including nutritionals and agribusiness services, as well as products and services in areas, such as biodevices, genetics tests, and precision livestock farming. It markets its products to veterinarians, livestock producers, and retail outlets, as well as third-party veterinary distributors through its sales representatives, and technical and veterinary operations specialists. The company was founded in 1952 and is headquartered in Parsippany, New Jersey.

IQVIA Holdings Inc. provides advanced analytics, technology solutions, and clinical research services to the life sciences industry in the Americas, Europe, Africa, and the Asia-Pacific. It operates through three segments: Technology & Analytics Solutions, Research & Development Solutions, and Contract Sales & Medical Solutions. The Technology & Analytics Solutions segment offers a range of cloud-based applications and related implementation services; real world solutions that enable life sciences and provider customers to generate and disseminate evidence, which informs health care decision making and improves patients' outcomes; and strategic and implementation consulting services, such as advanced analytics and commercial processes outsourcing services. This segment also provides country level performance metrics related to sales of pharmaceutical products, prescribing trends, medical treatment, and promotional activity across various channels, including retail, hospital, and mail order; and measurement of sales or prescribing activity at the regional, zip code, and individual prescriber level. The Research & Development Solutions segment offers project management and clinical monitoring; clinical trial support; virtual trials; and strategic planning and design services, as well as central laboratory, genomic, bioanalytical, ADME, discovery, and vaccine and biomarker laboratory services. The Contract Sales & Medical Solutions segment provides health care provider and patient engagement services, and scientific strategy and medical affairs services. It serves pharmaceutical, biotechnology, device and diagnostic, and consumer health companies. The company was formerly known as Quintiles IMS Holdings, Inc. and changed its name to IQVIA Holdings Inc. in November 2017. IQVIA Holdings Inc. was founded in 1982 and is headquartered in Durham, North Carolina.

Brookfield Asset Management is a leading global alternative asset manager and one of the largest investors in real assets. Our investment focus is on real estate, renewable power, infrastructure and private equity assets. Our objective is to generate attractive long-term risk-adjusted returns for the benefit of our clients and shareholders. We manage a range of public and private investment products and services for institutional and retail clients. We earn asset management income for doing so and align our interests with our clients by investing alongside them. We have an exceptionally strong balance sheet, with over \$30 billion of capital invested, primarily in our four listed partnerships: Brookfield Property Partners, Brookfield Infrastructure Partners, Brookfield Renewable Partners and Brookfield Business Partners. This access to large-scale capital enables us to make investments in sizeable, premier assets across geographies and asset classes that few managers are able to do. We create value for BAM shareholders in the following ways: As an asset manager ? by investing both our own capital and that of our investors ? this enables us to increase the scale of our operations, and enhances our financial returns through base management fees and performance-based income; as an investor and capital allocator ? we strive to invest at attractive valuations, particularly in value-oriented situations that create opportunities for superior valuation gains and cash flow returns, or by monetizing assets at appropriate times to realize value; and as an owner-operator ? we constantly work to increase the value of the assets within our operating businesses and the cash flows they produce through our operating expertise, development capabilities and effective financing.

The investment seeks to track the investment results of the MSCI Canada Custom Capped Index. The fund will at all times invest at least 80% of its assets in the securities of its underlying index and in depositary receipts representing securities in its underlying index. The underlying index is designed to measure broad-based equity performance in Canada. The underlying index uses a capping methodology to limit the weight of any single issuer to a maximum of 25% of the underlying index. The underlying index will include large- and mid-capitalization companies and may change over time.

Arista Networks, Inc. develops, markets, and sells cloud networking solutions in the Americas, Europe, the Middle East, Africa, and the Asia-Pacific. The company's cloud networking solutions consist of extensible operating systems, a set of network applications, as well as gigabit Ethernet switching and routing platforms. It also provides post contract customer support services, such as technical support, hardware repair and parts replacement beyond standard warranty, bug fix, patch, and upgrade services. The company serves a range of industries comprising internet companies, service providers, financial services organizations, government agencies, media and entertainment companies, and others. It markets and sells its products through distributors, value-added resellers, system integrators, and original equipment manufacturer partners, as well as through its direct sales force. The company was formerly known as Arastra, Inc. and changed its name to Arista Networks, Inc. in October 2008. Arista Networks, Inc. was incorporated in 2004 and is headquartered in Santa Clara, California.

TransUnion provides risk and information solutions. The company operates in three segments: U.S. Markets, International, and Consumer Interactive. The U.S. Markets segment provides consumer reports, actionable insights, and analytics, such as credit and other scores, as well as technology solutions for businesses. These businesses use its services to acquire new customers; assess consumer ability to pay for services; identify cross-selling opportunities; measure and manage debt portfolio risk; collect debt; verify consumer identities; and investigate potential fraud. This segment serves various industry vertical markets, including financial services, healthcare, insurance, tenant and employment, collections, public sector, media, and other markets. The International segment offers credit reports, analytics, technology solutions, and other value-added risk management services; consumer services, which help consumers to manage their personal finances; and consumer credit reporting, insurance and auto information solutions, and commercial credit information services. This segment serves customers in financial services, retail credit, insurance, automotive, collections, public sector, and communications industries through direct and indirect channels. The Consumer Interactive segment provides credit reports and scores, credit monitoring, fraud protection and resolution, and financial management solutions that enable consumers to manage their personal finances and take precautions against identity theft. This segment offers its products through online and mobile interfaces, as well as through direct and indirect channels. The company serves customers in approximately 30 countries and territories, including North America, Latin America, Europe, Africa, India, and the Asia Pacific. The company was formerly known as TransUnion Holding Company, Inc. and changed its name to TransUnion in March 2015. TransUnion was founded in 1968 and is headquartered in Chicago, Illinois.

American Financial Group, Inc., an insurance holding company, provides property and casualty insurance products in the United States. The company operates through three segments: Property and Casualty Insurance, Annuity, and Other. It offers property and transportation insurance products, such as physical damage and liability coverage for buses and trucks, inland and ocean marine, agricultural-related products, and other commercial property coverages; specialty casualty insurance, including primarily excess and surplus, executive and professional liability, general liability, umbrella and excess liability, and specialty coverage in targeted markets, as well as customized programs for small to mid-sized businesses and workers' compensation insurance; and specialty financial insurance products comprising risk management insurance programs for lending and leasing institutions, fidelity and surety products, and trade credit insurance. The company sells its property and casualty insurance products through independent insurance agents and brokers, as well as through employee agents. It also provides traditional fixed and indexed annuities to the retail, financial institutions, broker-dealer, and registered investment advisor markets; and run-off long-term care and life insurance services. In addition, the company engages in the commercial real estate operations in Cincinnati, Whitefield, New Hampshire, Chesapeake Bay, Charleston, and Palm Beach. American Financial Group, Inc. was founded in 1872 and is headquartered in Cincinnati, Ohio.
