Trina Solar Co., Ltd. operates as an integrated solar power products manufacturer and solar system developer in China, Europe, the United States, and other Asia Pacific regions. The company designs, develops, manufactures, and sells photovoltaic (PV) modules comprising monocrystalline and multicrystalline PV modules ranging in various power outputs for use in residential, commercial, industrial, and other solar power generation systems. It also provides mono- and multi-crystalline silicon ingots, wafers, cells, and related products. In addition, the company designs, constructs, sells, and/or operates solar power projects. It sells its products to power plant developers and operators, distributors, wholesalers, PV system integrators, and regional and national grid operators. Trina Solar Co., Ltd. was founded in 1997 and is headquartered in Changzhou, China.

Haohua Chemical Science & Technology Corp., Ltd. researches, develops, produces, supplies, and sells fluorine materials, special gases, special rubber, plastic products, and fine chemicals in China and internationally. The company offers fluoropolymers and fluorinated fine chemical products, including polytetrafluoroethylene resin, fluororubber and fluorine compound rubber, tetrafluoropropanol, perfluoropropylene, tetrafluoroethylene monomer, etc. used in electronic communications, aerospace, petrochemical, automotive, textile, and other industries. It also provides special gases, such as nitrogen trifluoride, sulfur hexafluoride, green nitrous oxide, hydrogen selenide, hydrogen sulfide, etc. for semiconductor integrated circuits, power equipment manufacturing, LED, fiber optic cable, solar photovoltaic, medical health, environmental protection monitoring, and other industries. In addition, the company offers special rubber products and polyurethane materials; rubber sealing products and profiles, rubber hoses, tape products, aviation tires, aviation plexiglass, etc.; rubber seals for water expansion, supply, and drainage pipes and cement roof pipes, etc.; and selected and modified composite, and casting system materials. Further, it provides coatings, catalysts, chemical propellants, raw materials, etc.; marine coatings, functional coatings for aerospace, and industrial anti-corrosion coatings; aircraft engine oil pipes, air pipes, shells, and blades; air-drying repair paints, and temperature indicating and transparent coatings, as well as coatings for aircraft fuel tanks, aircraft interior and exterior skins, and structural parts; and natural gas conversion and fuel cell catalysts, as well as offers technical services. The company was formerly known as Sichuan Tianyi Science & Technology Co., Ltd. and changed its name to Haohua Chemical Science & Technology Corp., Ltd. in June 2019. Haohua Chemical Science & Technology Corp., Ltd. is based in Chengdu, China.
